Andrew Patron (Andy) FMI Consultant

Andrew Patron (Andy) is a Consultant with FMI, management consultants to the construction industry. He specializes in the creation and implementation of training programs, which are designed to develop world-class leadership and organizational effectiveness. Andy's enthusiastic approach draws from his real-world experience in management and the construction industry. Andy brings with him over 20 years of experience working with private and public sector owners and contractors. As a production manager in the residential market, he has been responsible for the day-to-day allocation of resources and learned to tackle the unique operational challenges associated with production in the construction industry. Andy was the first Executive Director for the North Carolina Home Inspector

Licensure Board, initiating and administering the licensure and educational programs for a newly established governmental agency. He has also managed the planning, designing and building of major medical facilities for a national healthcare provider. He has worked on national and international projects for a Fortune 100 information technology company. Andy brings this industry experience to every talent development program he delivers to provide relevant and practical solutions for our contractor clients. Andy is a sought after presenter and has authored and delivered programs across the country. He shares a broad understanding of the construction industry with his audience and uses humor and firsthand experience to help make his presentations meaningful. Andy also has a Bachelor of Science in Industrial and Operations Engineering from the University of Michigan in Ann Arbor.

Phil Raimondo President & CEO Behlen Manufacturing

Don't miss a unique opportunity to hear industry insights from Phil Raimondo!

Phil Raimondo is president and CEO of Behlen Manufacturing Company and current chairman of the Metal Building Manufacturers Association. His vast experience—through both recessions and boom times—can provide you with valuable insights about the metal building systems industry. His international experiences and his wealth of technical knowledge assure an interesting, thought-provoking and educational session. Register now!

Phil Raimondo is President & C.E.O. of Behlen Manufacturing Company and current chairman of the Metal Building Manufacturers Association. Phil received both his electrical engineering degree and an MBA from Purdue University, then worked in various test engineering management positions before joining Behlen as their Quality Manager in 1990. Since then, he has moved through senior leadership positions at Behlen, rising from Plant Manager to Manufacturing Manager, then Director of Quality and Human Resources. These experiences led him into top jobs, first as President of International and Diversified Products, then President of Behlen Engineered Plastics, followed by President of the Behlen Buildings Division.

During his years in senior leadership, the company has received ISO9000 Certification SGS, was a two-time winner of the Nebraska Edgerton Quality Award, was named to Training Magazine's Top 100, and achieved MBMA Plant Safety Awards four (4) years in a row.

He also provided leadership as ISO9000 Lead Auditor in 1999 and a Senior Examiner for the Nebraska State Edgerton Quality Award.

Phil has held executive leadership roles in the Metal Building Manufacturers Association since 2005, serving on their Board of Directors and Executive Committee, as Vice-Chairman and now Chairman. He has the unique distinction of being the only MBMA Chairman whose father has also held that position. His father, Tony Raimondo, was MBMA Chairman in 1996.
