Dear MBCEA Members & Friends,

March 4, 2010

The time is quickly approaching for the 2010 Spring Meeting at the **Lowe's Motor Speedway**. The date is **March 25th, 2010**. Please mark your calendars and make plans to attend. As most of you are aware, the Carolinas Chapter is dedicated to bringing networking and training opportunities to our industry and this year's training program is one that we are very excited about.

Safety has always been a major concern for our industry and this year we are excited to have **Jack Moeding of Preferred Safety Products** presenting information on systems that assist in keeping our states contractors in 100% compliance with the fall protection regulations set forth in OSHA standards. Preferred Safety Products, Inc. offers safety products, service, design, installation service and assistance, as well as engineering services when needed. By integrating products with training and management systems, PSP makes safety work for all of us. PSP's goal is to offer the best, most practical, economically priced safety products to employers and their workers, as well as a full array of comprehensive training for specific needs.

On the behalf of the Carolinas- MBCEA, its members and sponsors I would like to invite all industry professionals, members and non-members that could benefit from this 2 ½ hour seminar to join us at the Speedway. As space is limited please RSVP with registration forms attached as soon as possible. We look forward to seeing all of you in Charlotte at the spring meeting and welcome new members in our continuing effort to develop and build strong relationships and better trained professionals within the construction industry.

All guest registered prior to March 20th will be eligible to win one of several door prizes. Prizes include but are not limited to the following: 2 - Richard Petty Driving Experience – ride along adventures, Fiber Metal Hard Hat, Windbreakers, and more.

Sincerely yours,

Reggie Moore

President MBCEA - Carolinas Chapter 2010 – 2011
